

◆ CORE COMPETENCIES

Custom Software & Systems

Full-stack application development, legacy-system modernization, automation, data pipelines and integrations, IT infrastructure and cloud support, and Section 508 accessibility remediation. NAICS 541511.

Compliance & Secure Delivery

CMMC readiness (self-assessment, SPRS preparation, SSP and POA&M), dedicated CUI enclave architecture, and NIST SP 800-171 alignment. Advisory, not a C3PAO; you remain the affiant for your own score.

Digital & Growth

Production web platforms and e-commerce, performance marketing and SEO, brand and content systems, and the analytics and reporting behind them.

◆ DIFFERENTIATORS

- ◆ **Engineering authority.** Built to spec on clean, API-first architecture, never templates. You own the assets outright, documented and supportable.
- ◆ **Security by design.** NIST SP 800-171 aligned and hardened by default. Governance is built in, not bolted on after the fact.
- ◆ **We build and we operate.** Every platform we show is one we run in production on a hardened multi-site stack we maintain ourselves.
- ◆ **San Antonio, JBSA-grounded.** US-based delivery and support, minutes from Joint Base San Antonio. Registered and verifiable.

◆ PAST PERFORMANCE

CLIENT ENGAGEMENTS

500 Sixth **COMMERCIAL REAL ESTATE**

Luxury residential property platform on a fully custom theme, with RealEstate schema and Core-Web-Vitals-tuned delivery.

Nomad Property Inspection **INSPECTION**

Regional inspection platform with LocalBusiness schema, automated lead capture, and a gated client portal.

Livin La Vida Local **LOCAL MEDIA**

Editorial media platform with LocalBusiness JSON-LD taxonomies, content silos, and RSS syndication endpoints.

DADO Group **ARCHITECTURE FIRM**

Content and messaging engagement repositioning a San Antonio design-build firm and introducing an AI-services offering.

FEDERAL PRACTICE & PLATFORMS WE OPERATE

BrandShyp Federal IT Practice **DEFENSE**

Registered federal IT contractor (SAM/UEI/CAGE, NAICS 541511); CMMC Level 1 affirmed and Level 2 self-assessed on a dedicated CUI enclave; SBIR proposals submitted; CMMC-readiness line for small defense suppliers.

SriLankaExport **AFFILIATED · OPERATED IN-HOUSE**

Trilingual B2B export marketplace built ground-up: custom Python translation pipeline, vendor onboarding, RFQ bid board, and payments. An affiliated venture of Harker International, disclosed as such.

◆ COMPLIANCE & SECURITY

- ◆ **CMMC:** Level 1 affirmed; Level 2 self-assessed against NIST SP 800-171. Dedicated CUI enclave; client holds the keys, we never host CUI.
- ◆ **Accessibility:** Section 508 (29 U.S.C. § 794d) and WCAG 2.1 Level AA.
- ◆ **Hardening baseline:** TLS 1.2+, security headers, DMARC p=quarantine / SPF / DKIM, TOTP 2FA, SSH key-only.
- ◆ **Continuity:** nightly encrypted backups, 14-day retention, rollback snapshots.
